

FREE STEM VR ROADSHOW

Give students hands-on STEM career exploration with cutting-edge VR—at no cost to your school.

REGISTER →

Help your students connect learning to real-world careers.

As educators, you play a vital role in inspiring the next generation. The Work Window Virtual Reality Career Exploration Roadshow is here to support you with an exciting, hands-on program that brings STEM careers in the Defence Industry to life for your students. And best of all, it's completely free.

Imagine giving your students the chance to explore career pathways in a way that's interactive, engaging, and practical. This program is about more than just learning—it's about opening eyes to new possibilities and building a bridge between the classroom and the real world.

Why your school will love our program.

Engage Students Like Never Before

Spark curiosity and ambition with immersive VR simulations that immerse students in cutting-edge STEM career experiences tied to the Defence Industry, showcasing the wide range of opportunities available, helping them explore pathways in engineering, technology, and innovation.

Ready-to-Go Resources

Save time and effort with tailored lesson plans, activity guides, and materials that fit directly into your school's curriculum or event schedule.

Flexible to Your Needs

Whether it's a career class, a lunchtime session, or a full careers expo, we provide everything you need to make it happen.

Completely Free

Funded by the Australian Government—no cost.

What is included?

Comprehensive Career Activity Packs

Designed to maximise impact and make facilitation easy:

- Classroom Integration Materials. Plug VR experiences into existing lessons in subjects like Physics, Maths, or Chemistry.
- Career Class Tools. Support career advisors with resources for 40-50 minute sessions focused on real-world STEM applications.
- Event Support. Posters, take-home materials, and guides to run impactful career expos or lunchtime drop-in sessions

VR Headsets

Access up to 30 headsets, adjusted to your school's specific needs. Your students will get hands-on with the latest Virtual Reality headsets, fully equipped to immerse them in STEM career pathways.

Expert Guidance

Our team provides support every step of the way, ensuring a seamless and impactful week.

Make the Most of Your Roadshow

This program is about creating opportunities for as many students as possible to experience these sessions. Schools must be able to involve at least **150 students** in the program to participate, schools are encouraged to include more to fully maximise the value of these immersive experiences. The more students who participate, the greater the benefit to your school community.

What to Expect During Your Week.

Monday

The VR headsets arrive, preloaded with career exploration experiences and accompanied by everything you need to get started.

Tuesday - Thursday

Students dive into STEM career pathways in engaging 10–15 minute VR sessions. Plan for at least five classes and ensure a minimum of 150 students participate throughout the week.

Friday

The headsets are collected and sent to the next school, hassle-free.

Roadshow Partners

Delivering an impactful experience takes teamwork. We're proud to collaborate with partners who help make this program a success.

Study Work Grow will provide high-quality Career Activity Packs to support teachers and enhance student learning. These resources ensure that VR experiences translate into meaningful career exploration and classroom discussions.

Don't Miss Out —Register Now!

Give your students a chance to explore their future in an unforgettable way. The Work Window VR Roadshow is your school's opportunity to bring career inspiration to life—all for free.
